

GSU-A Angle Bracket

Features

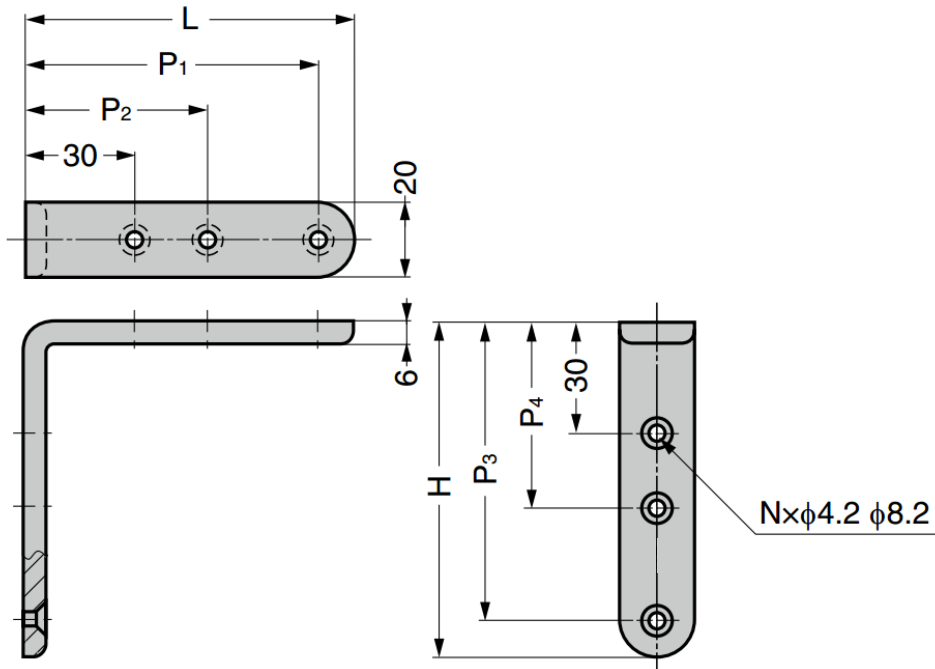

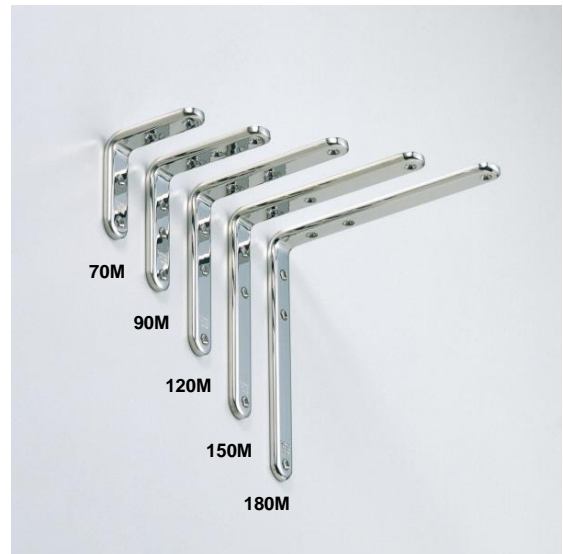

- Made of stainless steel with excellent rust resistance, ideal for use as reinforcement fittings and brackets for partition panel in various applications
- Rounded corners for safety
- Satin finish also available, contact Gripwell for assistance

Material

- Stainless steel 304, polished finish

Notes

- To prevent inclination due to the load when using as a shelf bracket, the opening angle is slightly more than 90°
- Raised countersunk head tapping screw 4 x 25 (SUS) provided
