

## GSU-B Angle Bracket

### Features

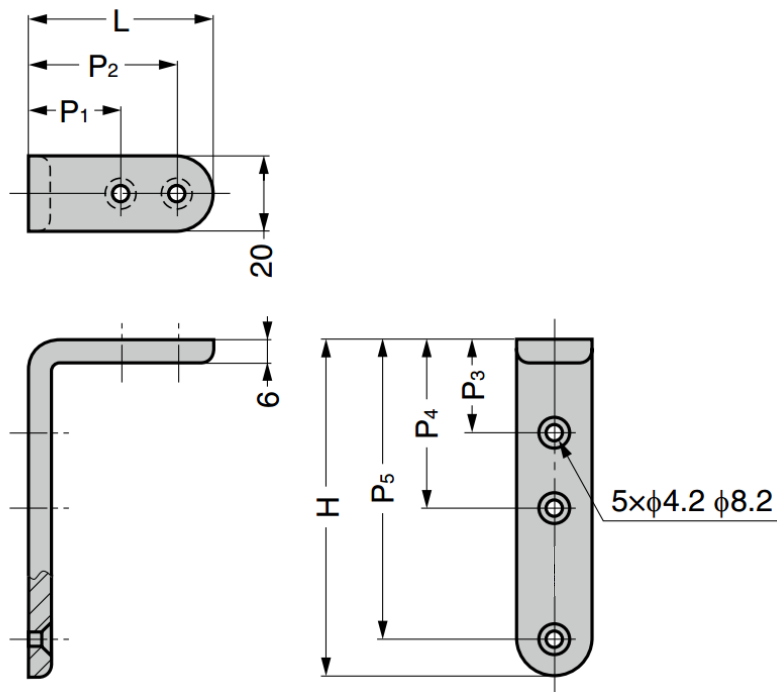

- Made of stainless steel with excellent rust resistance, ideal for use as reinforcement fittings and brackets for partition panel in various applications
- Rounded corners for safety
- Satin finish also available, contact Gripwell for assistance

### Material

- Stainless steel 304, polished finish

### Notes

- To prevent inclination due to the load when using as a shelf bracket, the opening angle is slightly more than 90°
- Raised countersunk head tapping screw 4 x 25 (SUS) provided

| Part No. | H   | L  | P <sub>1</sub> | P <sub>2</sub> | P <sub>3</sub> | P <sub>4</sub> | P <sub>5</sub> | Load Capacity |       |
|----------|-----|----|----------------|----------------|----------------|----------------|----------------|---------------|-------|
|          |     |    |                |                |                |                |                | N             | kg    |
| GSU-B50M | 90  | 50 | 25             | 40             | 25             | 45             | 80             | 127 N         | 13 kg |
