

GG11 Die Cast Grab Handle

Features

- Designed with clean, modern lines with thin sections and curved shapes
- Ideal for use as an entry-assist on rear and side doors of trucks and vans, for compressor and engine covers, and on containerised gen-sets
- Low profile and wide section for good grip
- No sharp corners or edges
- Fully plant-on, with semi-concealed fixing holes

Material

- Die cast, black powder coated or hand-polished chromium plated
