

## GE8 'Truncheon' Style Handle

### Features

- Useful design with two versions
- The plain handle is driven onto a shaft and is drilled and pinned. Otherwise, a centre hole is provided for screw fixing
- 8 mm square hole, in-line with axis
- Finish is raw or chrome

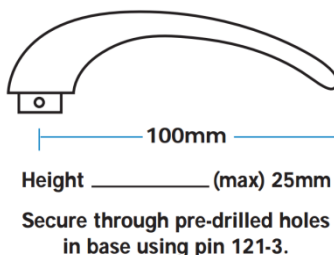

| Part No.   | Type              |
|------------|-------------------|
| GE8-G05459 | Raw, drive-fit    |
| GE8-G24188 | Chrome, drive-fit |
| GE8-G00260 | Chrome, screw-fix |

## GE8 Traditional 'Pin-Fix' Style Handle

### Features

- Slim, curved handle fixed by pinning through pre-drilled holes in base
- Two versions are available:
  - **GE8-G11908**, 9.5 mm square core
  - **GE8-G00608**, 8.0 mm square core
- A spring-escutcheon (**G16420**) which covers base of handle for neat appearance is available separately

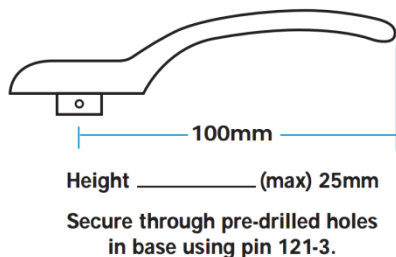

| Part No.    | Type           |
|-------------|----------------|
| GE8-G011908 | 9.5 mm sq core |
| GE8-G00608  | 8.0 mm sq core |

## GE8 'Modern' Style Handle

### Features

- A modern car handle with attractive styling
- It has 9.5 mm (3/8") square core, in-line with axis, and is secured by predrilled holes in base
- Adapter shim **G07995** (sold separately) allows handle to fit 8 mm square shafts

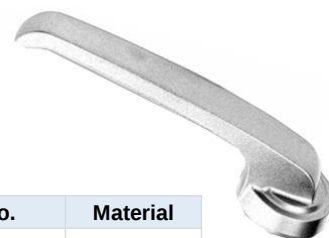

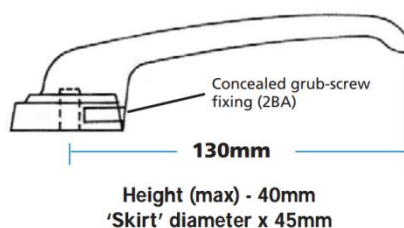

| Part No.   |
|------------|
| GE8-G00239 |

## GE8 Heavy Duty Handle

### Features

- A substantial handle, fixed by concealed grub-screw in 'skirt'
- Finish is chrome or black
- Square core at 8 mm (5/16"), in-line with axis

| Part No.    | Material |
|-------------|----------|
| GE8-G00802  | Chrome   |
| GE8-G00802B | Black    |

**G16420**
