

GHG-JH14 Stainless Steel Soft Close Damper Hinge

Features

- Hinge with built-in damper keeps lid from slamming shut
- Light and smooth opening and soft closing
- Left-handed damper works when rotating counter-clockwise
- Right-handed damper works when rotating clockwise
- Low torque type (1.6 ~ 3.0 N.m) also available on request

Notes

- Sold in pairs
- Install a stopper at the lid opening / closing position if required to limit swivelling range to suit application
- Ensure both hinge shafts are levelled and aligned during installation

Installation

When viewing door from lower side as shown above, install the left-handed type damper (white) on the left side and the right-handed type (grey) on the right side.

Left-handed type shown.
