

GF9 Stainless Steel Raised Profile Hinge

Features

- Hinge pin is raised above the surface to allow clear opening of doors
- Hinge leaf is shaped accordingly, giving additional strength and good appearance
- 'Handed' only by direction of fitted pin, and available in two sizes
- Hinges open fully forward to 180°.
- Plant-on, and secured through countersunk holes in leaf butt
- Hinge pin is removable

Material

- Stainless steel 304, bright polished

GF9-G01782
(80 mm, RH)

GF9-G01780
(120 mm, RH)

Headed pin is shown fitted in right hand position:
this is removable and can be reversed on site

GF9-G01783		Left-hand											

GF9 Die Cast Raised Profile Hinge

Features

- Similar model to above 120 mm hinge, but made in zinc die cast alloy and chromium-plated for good appearance
- Less expensive than stainless models, the die cast hinge is ideal for interior and less demanding applications
- Also available with black powder-coated finish on special request
