

4200 / 4201 Paddle Hook Latch

Features

- Designed for use on pickup truck toolboxes and access doors
- Features include a full three-finger release, recessed key cylinder to reduce possible damage, and splash guard, which limits water penetration (standard on all models)
- Available with a polished stainless steel paddle and receptacle, black powder coated carbon steel receptacle, or carbon steel zinc finish

Material

- (10) Polished stainless steel
- (25) Electroplated zinc
- (32) Black powder coated receptacle with polished stainless steel handle
