

GD15 Side Mount Claw Latch

Features

- Extremely versatile unit which sits within a compartment and slam against a striker peg to provide a very positive engagement
- Claw engages with striker and is released by pressure on top trigger or can be operated remotely via cable to hole in trigger plate
- Used for top-opening hatches and covers where latch is concealed below edge of door or base unit
- Slam-action against pin or loop striker plate
- Both 'hands' available as illustrated

Material

- Steel, zinc plated

Product Performance

- Transverse load (direct pull): Excess of 6,000 N
- Maximum force on trigger to release: 2.5 kg

Notes

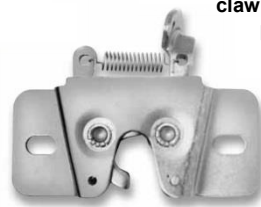

- Plant-on fixing through elongated holes in side flanges
- Striker **G00724** sold separately

G00724
(Striker, normally used with this latch)
