

BE34 Stavex

Large flange head · Steel body · Steel stem · Multi-grip
4.8 mm (3/16")

Features

- High shear and tensile strength provides strong, vibration resistant joints
- Multi-grip capability accommodates wide variations in material thickness
- Good hole fill compensates for irregular, oversized, slotted or misaligned holes and can stop movement in non-standard holes
- Retained stem avoids damage, electrical problems or rattling caused by loose stems
- Provides a large blind side bearing area against the rear sheet
- Spreads the tail bearing load/clamp load on the rear sheet making it ideal for use in thin sheet materials

Material

- Body: Low carbon steel, zinc plated
- Stem: Low carbon steel, zinc plated

Before Placement

After Placement

Part No.	Size ø	Grip Range		Hole Size		M	øB	D	øE	Shear (min.) kN	Tension (min.) kN
