

74200 Threaded Insert Tool

Hydropneumatic

The Avdel 74200 model is a lightweight ergonomic tool recommended for the placement of larger Avdel blind threaded inserts.

It features a one step trigger for simplicity and ease of use whilst the tough plastic body makes this tool capable of withstanding the toughest of production lines.

The 74200 can be suspended or used as a hand tool, allowing maximum installations to minimise your installation costs.

Features

- Lightweight and ergonomically designed
- One-step trigger
- Spin-on, pull-up, spin-off action
- Can be suspended or hand-held
- Heavy duty plastic body and long-life components
- Meets demands of tough work environments
- Quick and simple operation
- Places a wide range of threaded inserts
- Minimizes installation costs
- Reduces operator fatigue
