

G2LC Stainless Steel 316 / Titanium Handle

Features

- Easy to grab
- 2 types of materials available: lightweight and strong titanium with excellent corrosion resistance, or cast steel SCS14 equivalent to stainless steel SUS316
- Titanium handle hardly causes metal allergy. In addition, it is non-magnetic, and is suitable for medical devices such as MRI

Notes

- Screws are not included for titanium handles, titanium screws are sold separately.
- Stainless steel pan head tapping screw included for stainless steel handle

Part No.	Material	Finish	L	L ₁	P	B ₁	B ₂	H	h ₁	h ₂	t	d	d ₁
