

2717 Monobolt

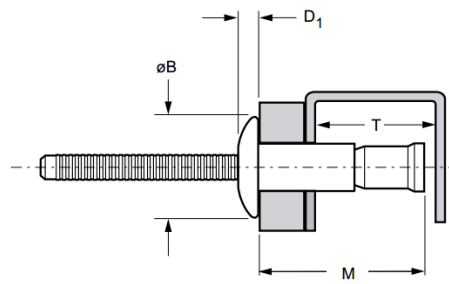

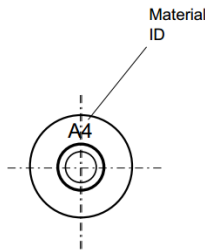

Dome head · Stainless steel 316 body · Stainless steel 316 stem · Multi-grip
4.8 mm (3/16") - 6.4 mm (1/4")

Features

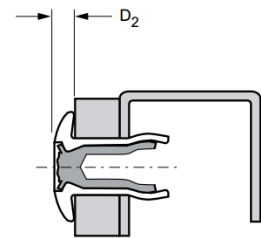

- Multi-grip structural breakstem fastener
- Fully sealed joint and visible lock for quick and easy inspection
- Corrosion resistant, suitable for applications in marine and hostile environments
- Excellent hole fill via radially expanded body provides very strong, vibration resistant joints and compensates for irregular, oversized, slotted or misaligned holes
- Good sheet take-up performance for large gap closing capability
- Stem mechanically locked into body avoids damage, electrical problems or rattling caused by loose stems
- High shear and tensile strength

Material

- Body: Stainless steel 316, natural
- Stem: Stainless steel 316, natural

Before Placement

After Placement

| Part No. | Size ø | Grip Range | | Hole Size | | M | øB | D ₁ | T | D ₂ | Shear (typical) kN | Tension (typical) kN |
|-------------|----------------|------------|-------|-----------|------|------|------|----------------|------|----------------|--------------------------|----------------------------|
